## Foreword

Academy of Educational Planning and Management (AEPAM) has been publishing the Annual National Education Statistics Reports regularly since 1992-93. The report on Pakistan Education Statistics 2005-06 is the 14<sup>th</sup> National Report of this series. It comprises educational data pertaining to all categories of educational institutions of both public and private sectors from pre-primary to tertiary levels. It also includes data in respect of professional, technical, vocational, non-formal, teacher-training institutions, non-formal basic education of public and private sectors as well as deeni madaris. Now AEPAM is maintaining a comprehensive national database that has information pertaining to all categories and types of educational institutions. The report contains information regarding number of educational institutions, enrolment, teachers and physical facilities. The tabulation is disaggregated by gender and location of public and private educational institutions as well as by province/ regions. The information given in the report reveals the trends and important milestones in the system as a whole and will be a catalyst in the process of setting goals and targets at micro and macro levels in planning and decision-making.

AEPAM is making concerted efforts for the availability of reliable, valid and quality data on education. It has developed standard operation procedures and guidelines for data collection for the purpose. It intends to audit reliability of the information supplied by the EMISs/ schools through validation survey and result will be used to evaluate the quality of data. It also intends to organize training programs for EMIS personals for their professional growth. These measures will help further in the improvement of the quality of data.

We are highly grateful to the Honourable Federal Education Minister for his patronage and kind guidance for AEPAM/ NEMIS without which all these activities were not possible. The constant guidance and support provided by Mr. Jehangir Bashir, Federal Education Secretary, to AEPAM made it possible to conduct all the activities as per planned schedule. It is an un-denying fact that the support and cooperation of Dr. S. Fayyaz Ahmad, Joint Educational Advisor, P&P Wing, Ministry of Education were always valuable which proved a source of encouragement for the staff members of the AEPAM.

We are indebted and grateful to the assistance and cooperation extended by Mr. Ahmad Javed Qazi, Provincial EMIS Coordinator Punjab, Mr. Iqbal Hussain Durrani, Chief Program Manager/ Provincial EMIS Coordinator Sindh, Mr. Salah-ud-Din, Deputy Database Administrator/ Provincial EMIS Coordinator NWFP, Mohammad Yousaf Khoda, Director/ Provincial EMIS Coordinator Balochistan, Sardar Muhammad Azam Khan, Director/ Coordinator EMIS AJK, Shahzada Ibrahim Khan, Director/ Coordinator EMIS FANA and Mr. Fazal-e-Manan, Director/ Coordinator EMIS FATA for providing the provincial/ regional consolidated data for the national data bank on education. ## Introduction

### Academy of Educational Planning and Management (AEPAM)

Academy of Educational Planning and Management was established in 1982 and now functioning as a subordinate office of the Ministry of Education.

### Vision of AEPAM

### Mission Statement

With a national commitment to facilitate development and promotion of education through co-operative policy, planning, innovation, capacity building, quality assurance, check on implementation, management and up-gradation of information system and data bank.

### Charter of AEPAM

- AEPAM may act as "Think Tank" for assisting the Ministry of Education in the formulation of Education Policies.
- AEPAM may monitor and evaluate the education sector projects and programs being implemented throughout the country.
- The existing EMIS at Federal level may collate data collected through provincial EMIS, and develop database of critical indicators on qualitative aspects of educational growth.
- Maintain linkages with Provincial and District heads of Educational Institutions.
- Continue its training programs for capacity building of Education Managers.
- May also impart training at the pattern of NIPA to all Educational Officers eligible for promotion to BPS-20 on regular basis.
- Organize training programs in computer/ IT for head teachers, teachers, computer personnel and education managers.

### National Educational Management Information System (NEMIS)

Until 1982 with the exception of NWFP, there was no computerized database available on the country's education system. However, in the rest of Pakistan, manual facilities were existed which were time consuming and also unreliable. Obviously, the data made available was normally two to three years old. Moreover, there were technical discrepancies affecting the quality of data. A definite need was, therefore, recognized to improve the data collection mechanism, its reliability, relevance and also prompt availability. NEMIS Project phase-I was launched during 1990-1993, with the assistance of UNESCO, UNDP and USAID. Under Central Bureau of Education (CBE). The first National School Census in the history of the country was conducted and field data was collected during 1991-92. This project paved the way for the establishment of a network throughout Pakistan having seven key locations (Islamabad, Karachi, Lahore, Peshawar, Quetta, Muzaffarabad and Gilgit) to cover almost all district in each province/region.

After the abolition of Central Bureau of Education (CBE), the project was shifted to the AEPAM in view of its professional and technical expertise. The Federal Educational Management Information Systems (FedEMIS) project was approved at a cost of Rs.12.395 million in 1994 for a period of two years (1994-95 and 1995-96).

NEMIS phase-II project was approved at a cost of Rs.18.045 million in May 1997. The main objectives of the Project were to provide the infrastructure for EMIS and develop the mechanism for collecting educational data/ statistics. Further, provincial EMISs were entrusted to transmit data to the AEPAM for consolidation and development of viable indicators.

In continuation of NEMIS-II its current phase in the form of Project NEMIS-III was approved at a cost of Rs. 37.40 million by DDWP on 1st April 2002. The duration of project is 36 months (2003 to 2006). Following are the main objectives of the project:

- To enhance data generation capabilities of the Provincial & District EMISs.
- To develop management capacity building of education managers to use data in decision-making.
- To develop and maintain website for NEMIS.
- To assist provincial EMIS centers in the development of software programs.
- To provide data required by Federal Government and International agencies.

NEMIS has been regularized with effect from 1<sup>st</sup> July 2007. So the NEMIS would be financed through non-development budget from the next financial year 2007-08.

### **Data Compilation Mechanism**

NEMIS is the coordinating unit for education statistics/data collection, compilation, report generation and providing technical support to the provincial EMIS units. Each province/ area has established its own EMIS unit in early 1990. Federal Directorate of Education has established its EMIS cell during 2005-06. However, Annual School Census 2005-06 for Islamabad Capital Territory (ICT) has been conducted by Federal Directorate of Education in collaboration with the Academy of Educational Planning and Management. FANA and AJK have already established their EMIS units in 1998. The FATA EMIS unit has been established since 2002. The AEPAM has provided technical support for the establishment of these units. These EMIS units are responsible for collection, compilation, analysis and dissemination of education statistics/data of their respective provinces/regions. These units usually collect data through their district EMIS cells by conducting annual school census, which is conducted in October/November by each province/ area every year. The provincial data is transmitted to NEMIS for consolidation at national level.

AEPAM plays a leading coordination role in addressing crucial issues and problems in respect of compatibility of questionnaires, statistical terminologies, data requirement for development of core educational indicators, discrepancy and inconsistency in data, data reliability and validity, non-availability of data of private schools and timely availability of data. Various regulatory committees have been constituted under the NEMIS to discuss and resolve these issues.
